SUMMARY

Adaptable and motivated Computer Science Engineering student with strong communication skills and experience in MERN stack, backend development. Skilled in problem-solving, collaborating in teams, and building high-quality web applications. Eager to learn and grow in a dynamic work environment while contributing to innovative projects.

EDUCATION

RGUKT Basar (IIIT-Basar), Telangana, India

Bachelor of Technology in Computer Science Engineering

Nov 2022 – Nov 2026

CGPA: 8.45/10

RGUKT Basar, Telangana, India

Pre-University Course in MPC with IT and Python specialization

Nov 2020 – Nov 2022

CGPA: 8.36/10

EXPERIENCE

MERN Stack Development

Jan 2025 – Present

- Built full-stack web applications using MongoDB, Express.js, React.js, and Node.js (MERN stack).
- Designed RESTful APIs and integrated them with frontend React components for seamless user experiences.
- Implemented secure authentication using JWT and session handling with cookies.
- Used MongoDB for NoSQL data storage and Mongoose for data modeling and validation.
- Developed reusable components in React and ensured responsive design using CSS and Bootstrap.

PROJECTS

WealthCare Portal

MongoDB, Express.js, React.js, Node.js (MERN), CSS

- Developed a secure and user-friendly financial portal for managing wealth and expenses.
- Implemented authentication and dashboard views with dynamic data rendering using React.
- Created RESTful APIs with Node.js and Express, and managed data with MongoDB.
- Designed responsive UI with CSS for a seamless experience across devices.

Email Software

JavaServer Pages (JSP), HTML, CSS, DBMS

- Built a web-based email client with user sign-up and login functionality.
- Implemented inbox, sent box, and trash features using a backend database.
- Used JSP for server-side logic and HTML/CSS for frontend layout and styling.
- Managed data persistence with DBMS integration for secure email storage and retrieval.

TECHNICAL SKILLS

Subjects: Computer Networks, Data Structures, Algorithms, Basic Linux, DBMS, Operating Systems, OOP

Languages: Java, Python

Frameworks: React.js, Express.js, Node.js

Databases: MongoDB, MySQL

Dev Tools: Visual Studio Code, Git, GitHub, Generative AI Tools

AI: Generative AI, Large Language Models (LLMs)
